

Making Measurement Science Work!

BLOWER DOORS & ACCESSORIES

Energy Conservatory & Retrotec systems, gauges and parts

THERMAL IMAGING CAMERAS

Testo, Flir and Fluke for industrial, residential and commercial applications

DIGITAL A/C GAUGES & ACCESSORIES

Testo & Digi-Cool refrigeration system analyzers & probes. Digital vacuum gauges and accessories

COMBUSTION & EMISSION ANALYZERS

Testo & Bacharach combustion analyzers and Enerac emission analyzers available

DUCT LEAKAGE TESTERS

Retrotec and Energy Conservatory duct leakage testers & supplies

AIR FLOW MEASUREMENT

Alnor, testo, Fluke, Extech & TSI flow hoods, vane anemometers, hot wires, & pitot tubes for measuring static pressure and air flow.

GAS LEAK DETECTORS

Combustible (gas & propane) & refrigerant leak detectors. Ultrasonic, ultraviolet & soap solutions available.

GRILL MASK & VENT COVERS

All sizes of grill mask and reusable vent covers from Vent Cap Systems and Mav Cap available.

PERSONAL CO MONITORS

Testo and Sensit personal CO meters for HVAC, Energy Auditing and Weatherization.

TruTech Tools Training

Free Process & Application Training

Whether you're a seasoned pro or new to the industry, our website can be a truly invaluable resource. The science of Airflow Measurement, Combustion Analysis, Vacuum Measurement, and more are covered by our team of experts so you can be sure you are purchasing the right tool for the job!

Free Webinars

Available at your convenience. Our Webinars are presented live several times per month and are available in a recorded version to view at your convenience. CEUs available.

Technical Resources

Books, videos, simulators and free downloads available.

Consulting & Corporate Training Services

We deliver over 45 years combined experience in measurement science to your product development or service team. Private, customized sessions available on-site or via webinar. Expert Witness services available.
