

CLIMATE CLASS™

WIRELESS DIGITAL VACUUM GAUGE

A NEW CLASS OF PRODUCTIVITY.

Experience enhanced job productivity and accuracy with the CLIMATE CLASS DV-22W. Wireless connectivity allows you to monitor and document system evacuations, and a rotating OLED screen provides visibility from any angle.

FEATURES

- Field-replaceable sensor prolongs tool life and reading accuracy
- Direct access to sensor for easy and thorough cleaning of oil and contaminants
- Ten (10) included sensor filters provide an additional layer of protection
- Large OLED display rotates 360° making it easy-to-read at any angle
- Fast reacting and extremely accurate at any elevation with easy field calibration to barometric pressure
- IP54 rated for dust particles and rain
- Flexibility to use in standalone mode or with the JB GO V2 app
- Operates with two AA batteries (included)

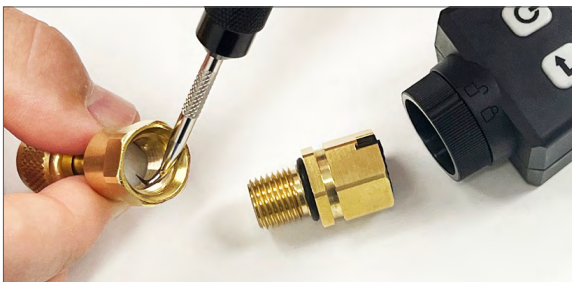

Look for JB GO V2 in your app store

Large OLED display rotates a full 360° making it easy-to-read at any angle
