

Ideal for Ducted AC Systems

NCT145 Tank Pump

Smart and Automatic Condensate Management

Automatic Condensate Collection

- Durable centrifugal pump
- 23' maximum lift
- Brushless DC motor
- Rated for condensate water up to 160° F

Built-In Water Level Safety Sensor

- Highly reliable electrode sensor
- Three-piece sensor for overflow protection

Easy to Use

- Automatic self-cleaning function
- Manual drain for forced discharge
- 4 Indicator lights for quick status check
- Built-in level for easy installation

Large Water Tank Capacity

- 1/2-gallon translucent water tank for fast inspection
- Minimizing runtime, extending life & energy saving

Easy Maintenance

- Snap-on/off cover
- Detachable 3-conduct power cable and 2-conduct signal cable
- Cleanable built-in filter

Quick Discharge

- Four 1" inlet opening with 3 poly covers
- 3/8" OD discharge port with built-in check valve

Model	NCT145
Power Supply	100-240V / 50-60 Hz
Flow Rate	145 GPH
Max. Lift	23 feet
Water Tank Capacity	0.5 gallon
Noise Level at 1 meter	45 dB(A)
Applicable Ambient Temperature	160°F (70°C)
Certification	CSA, CE
Accessories	3 cable ties, Detachable Power Cable, 16' Water Pipe

1-YEAR WARRANTY
