

N•VO

PORTABLE COMBUSTION ANALYZER UP TO 4 SENSORS

Key features:

- **SIMULTANEOUS Measurements:**
Combustion + Gas Pressure + Draft
- **Cracked Heat Exchanger Test** NEW
- Built In or Bluetooth Printer
- Long Life O2 Sensor (4 Year Warranty)
- High CO Protection (up to 100,000 ppm)
- Field Replaceable, Pre-Calibrated Sensors
- Integrated Manometer (Draft + Pressure)
- Ambient CO Monitor
- NOx Upgradeable (NO + NO2)
- 24-48 Hour Turnaround Time on service/calibration 🕒 24h

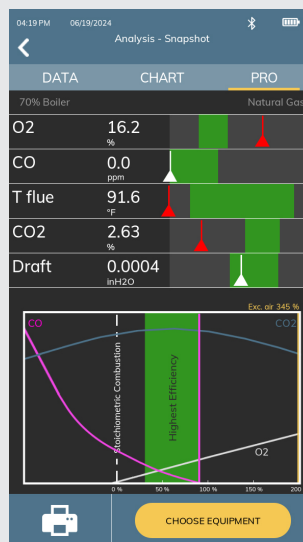

NEW CRACKED HEAT EXCHANGER TEST

- Detects potential cracks in forced-air furnace heat exchangers by comparing oxygen levels with the blower off and on
- Quick and reliable process to identify potential hazards before they escalate

PRO/CHART ANALYSIS MODES

- Select Equipment Type
- Stabilize Combustion readings in GREEN Zone for optimal combustion
- View Stoichiometric Chart/Graph
- O2, CO, CO2, Flue Temp + Draft
- Add custom equipment profiles

GAS PRESSURE + COMBUSTION + DRAFT

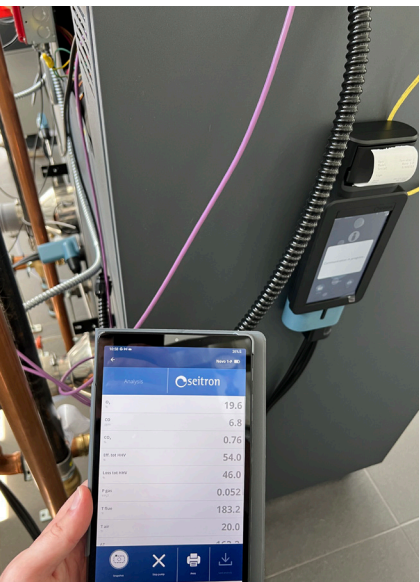

- View LIVE Draft, Gas Pressure & Combustion Results at the SAME TIME
- Print or Save Gas Pressure. No need for separate external manometer

NEW DRAFT PROBE (#AJDR01)

- External probe for NoVO enables measurements at alternate flue points
- Offers enhanced flexibility and diagnostic accuracy
- Perfect for technicians needing precision across multiple stack zones

SEITRON SMART ANALYSIS APP

- Live Viewing of Data
- Data logging
- Custom Report creation
- QR code or real-time Bluetooth
- Sharing via e-mail (csv, pdf, xml)
- Create Customer Profiles
- Custom reports with your logo

Seitron Smart Analysis

Seitron Smart Analysis
Software Windows 10

EVERY KIT INCLUDES:

- NOVO Combustion Analyzer
- Gas probe with 12" (300 mm) interchangeable tip
- 10 ft (3m) Single Connection Hose
- Manometer Hose
- AC Power Adapter & Cable
- Foam lined plastic kit case
- Calibration Certificate
- Combustion Cheat Sheet

TRAINING

Class Topics Include:

- What is Combustion?
- Why Use Analyzers?
- Making Money with Analyzers
- Carbon Monoxide (CO) Safety
- Proper Combustion Analysis Procedure
- Measuring Points & Typical Readings
- Interpreting Combustion Readings
- Cracked Heat Exchanger Test
- Analyzer Maintenance & Operation

Class Counts for
2 NATE CEU Hours!

The Gold Standard for
HVACR Technician Certification

Class Counts for
3 NORA Hour CUE's

Webinar Trainings Available!

MAINTENANCE AND SERVICE

Services Offered:

- Low-Cost Calibration
- Annual Certification
- Inspection & Cleaning
- Sensor Replacement
- Repairs
- Real-time Technical Support
- Field Calibration Training
