- ✓ Adjustable bike-style grips
- ✓ Quick setup
- ✓ Breaks down for easy storage

INCLUDES

- ✓ Extension tube
- ✓ Main body
- ✓ (2) Handles
- ✓ (3) Locking pins

TECHNICIAN INVENTED. TECHNICIAN PROVEN.

The Tugboat was invented by a real HVAC technician who was looking for a safer and easier way to transport heavy compressors on jobs.

His design focused on ergonomics and quality materials. Through the Supco® TradeFox™ Inventor Program, he was able to bring his invention to mass production.
