Made in the USA

Zebra Instruments began in 2004 out of a garage in Texas, by a Tech for Techs, using good old fashion American ingenuity, sweat, and tears. We continue that inspiration today, proudly designing, engineering, soldering, assembling, printing, packaging, and shipping from our manufacturing warehouse in Salado, Texas. Though it has increasingly become difficult to source within the US, all or virtually all, as defined by the Federal Trade Commission, of our products meet the required guidelines.

Made in the USA	Made in the USA	Packaged in the USA
UZ-1	SW-5	ZD001
